

Technical Rider – SOUND

Dear promoter / local support,

This is an overview on our technical requirements. If there are any problems or questions regarding our technical requirements please contact us. Please note that this rider is part of the contract.

Generally:

All technical parts and equipment should be in line with local health and safety regulations.

PA:

Cúig's concerts require a sufficiently dimensioned and professional PA-system. Although Cúig are a "folk" band: their dynamic sound requires a PA-system capable of producing low frequencies.

Cúig requires a guidance level of 100db(A) (with 6db headroom) at the FOH and consistent frequency response between 30 to 18000Hz with equal levels at all audience areas.

FOH:

Midas, Yamaha or equivalent with minimum 19 channels, 11 aux sends (7 pre | 4 post).

Additional outboard gear if using an analogue desk:

1 X Dual Band Graphic Equalizer for Mains

3 X Gate (Drawmer, DBX, BSS)

9 X Compressors (Drawmer, DBX, BSS)

3 X Multi-FX (TC Electronics M1/M3000/5000, Lexicon PCM 80/90, Yamaha SPX990)

1 X Digital Delay (TC Electronics 2290, D2)

The Console must be positioned central to the stage, at audience height.

Monitor:

Cúig need three separate floor monitors (min. 12") on 4 auxiliary channels with adequate amplification and separate 31-band EQ.

Drummer will provide personal monitoring system (wireless) and in ear monitors (IEMs) – Sennheiser EW 300 IEM. Rónán will provide hardwired in ear monitors.

Backline:

Drums: Kick, Floor Tom, Tom, Snare, Hi-Hats, Ride, Cymbal Crash x 2 (Zildjian Cymbals; 14" hats, 16/18" crash, 20" ride) | 2 x Boom cymbal stand, 1 x cymbal stand, 1 x Hi-Hat stand, 1 x Snare stand, 1 x Drum Chair

Five clean towels

A tidy stage is always warmly welcomed!

The band would be over the moon if everything was prepared by the time of their arrival!

Thank you very much!
